**Event**
IASGO (The International Association of Surgeons, Gastroenterologists and Oncologists) 2012 Bangkok, Gastric Surgery

**Date**
2012.12.7.

**Venue**
Shangri-La Hotel Bangkok (Thailand), Seoul National University Bundang Hospital (Korea), Yonsei University (Korea), Viet Duc Hospital (Vietnam)

**Comments**
Robotic and laparoscopic surgeries for gastric cancers were simultaneously demonstrated from Korea to Thailand with Vietnam as remote discussant. This program was so exciting and active discussion was made among four stations on pros and cons of these two types of surgery.

Discussion was active among four stations. Live surgery image shown on the screen.

Teleconference view at Viet Duc Hospital. Screen shows four participating hospitals.
